

With the constant idea to prioritize your safety and that of your belongings, the Town of Brome Lake Fire Department and the SPA des Cantons are very proud to have worked closely in the creation of a static sticker indicating the presence of domestic animals in your residence.

These stickers have been made to be affixed on a glass surface to be easily and quickly located by all emergency services. We invite you to come at the Town Hall during opening hours to get one (1) for your residence or through the firefighter or the preventionist during a residential visit.
